1. INDUSTRIAL RATING

Industrial rating is based on the principle that for purposes of assessment a business is regarded as a unit including all operations incidental thereto and wages should not be segregated except in respect of operations for which special provision has been made, e.g., Quarrying, Building Construction, etc., in which case segregation is compulsory.

2. FOR RATING PURPOSES, EMPLOYERS HAVE BEEN DIVIDED INTO 23 CLASSES, NAMELY:

I-V--- Primary Industries (Farming, Fishing, Mining and Building).

VI-XIII-- Secondary Industries.

XIV-XXIV- Services (Distributive Financial, Transport, Local Authorities, Personal Services, Professional Services, Educational, Charitable, Religious, Trade Organizations, etc.)

Each class consists of one or more subclasses for which separate rates are fixed.

3. EACH CLASS TO BEAR ITS OWN COST OF ACCIDENTS

The rates are fixed according to the class of industry in which the employer is engaged on the principle that each industry should produce sufficient revenue to meet the cost of accidents during the year of assessment and such cost of administration as may be incurred.

This ensures that each class and subclass bears its own cost of accidents and each of the 23 classes is, in effect, a mutual insurance association of employers in that class.

The rates are adjusted periodically, if necessary, to produce the required income for each year, and any increase or reduction depends entirely upon the frequency and severity of accidents for which class of business. **It is, therefore, in the interest of employers, apart from humanitarian considerations, to take an active interest in the prevention of accidents and to enlist the co-operation of their employees therein.**

CLASS I

AGRICULTURE, FORESTRY, etc.

0111

(1) Any farming operations that are not definable under the subclasses as set out in the table of rates hereunder, are subject to the rate for this subclass.

(2) Oyster cultivation; sheep shearing; dipping contractors as a separate undertaking; the organizing and conducting of agricultural shows.

0114

Farming operations where the farmer is mainly engaged in forestry, horticulture and/or crop farming (tillage - any kind of crop) other than sugar cane and tea growing; and has one or more tractors and/or power-driven saws; grass cutting; pressing and/or baling of chaff, Lucerne, etc.; orchard cultivation; ploughing; shelling of ground nuts and/or threshing as a business.

0116

Farming operations where the farmer carries on livestock farming and tillage on a more or less equal scale and he has one or more tractors and/or power-driven saws.

0118

Farming operations where the farmer carries on mainly sugar cane and/or tea growing; sugar milling including sugar cane cutting, loading, weighing; etc.
